

## Who we are

The World Council on Isotopes (WCI) was founded in 2008 and has a fast-growing and highly diverse membership, representing a broad range of interests and perspectives of the R&D, business, industrial and governmental sectors.

The WCI mission, as outlined in its charter, includes the sharing, development and promotion of relevant isotope technologies.

The WCI objectives, as outlined in its bylaws, includes:

- To promote cooperation internationally in the sharing of the uses of safe and environmentally sound isotope technologies to serve the needs for global wellbeing.
- To identify isotope-related topics of mutual interest warranting consideration by the Council.
- To develop appropriate policies and procedures for the conduct of specific conferences, symposia, and working groups.
- To develop appropriate policies and procedures for special working groups or Committees, for the conduct of workshops and for the preparation of WCI publications.

## What we do

Since it was established, WCI responded to the identified need to improve interactions among the diversity of role-players within the global isotope community.

**International Conference on Isotopes (ICI)**  
Since 1995, ICI has been organized every 2-3 years by a regional host under the auspices of the WCI.

**Expertise Provision**  
WCI provides expertise such as solutions to technical difficulties, seminar lectures, scientific advice for policy-making, etc.

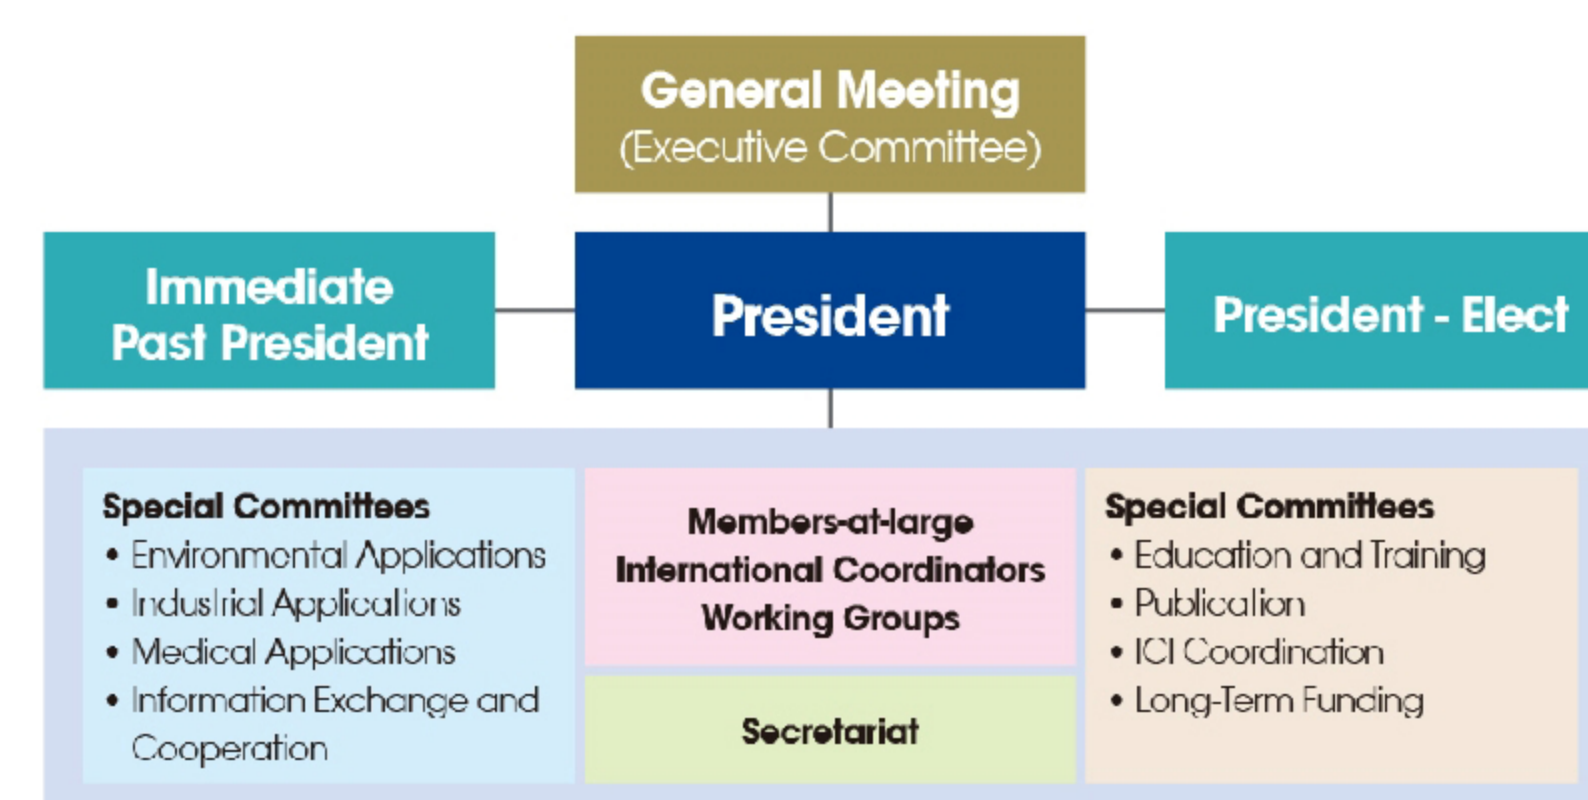

**IAEA-WCI Training**  
Based on the Practical Arrangement signed with the IAEA (Jan, 2016), WCI and IAEA are undertaking a training program on radioisotope production and use.

**Monthly Newsletter**  
WCI provides latest news (Policies / Technologies), events, profiles of member organizations, isotope-related news, etc.

**Information Exchange and Dissemination**  
WCI Website provides up-to-date information, publications, newsletters, and forum for online discussions, etc. ([www.wci-ici.org](http://www.wci-ici.org))

## Our members benefit from

**Representation** | Through consultation and discussion with its members, WCI has knowledge of the industry allowing it to carry out an efficient representation role.

**Specialized information** | The various expert committees of WCI provide members with regular updates and advice on key industry topics, market developments and relevant legislation. WCI members can get access to member-only resources on the [www.wci-ici.org](http://www.wci-ici.org) website.

**Training** | WCI offers radioisotope-related training programs and provides selected member trainees with tuition fees, travel expenses, and accommodation.

**Newsletter** | WCI members receive key information via the WCI monthly newsletter.

**Networking opportunities** | WCI provides a platform where members benefit from unrivalled networking opportunities within the industry.

**Promotion** | WCI's communication tools, e.g. members' sections of the newsletter and website, provide an opportunity for members to enhance their organization's profile

**Discounts** | Members also enjoy reduced registration rates for the ICI and some specific events.
